

GENERAL PURPOSE GRINDING wheels

- + Sterling's vitrified bonded general purpose grinding wheels for use on bench, floor stand and pedestal grinders are most economic and efficient in grinding of all steels.
- + These wheels are made of specially processed Brown Aluminium Oxide (A) and Silicon Carbide (Green & Black) Abrasives that give rapid grinding action, cooler cutting and excellent finish. The self-dressing property of these abrasives results in higher productivity of the wheels.

Product Range

Abrasive	Diameter	Thickness	Grit	Hardness	Structure
A	50 - 500	10 - 75	24 - 120	K - R	5
C, GC	150 - 500	13 - 65	60 - 120	J - S	5

Commonly Used Size

- + 150 x 20 x 31.75
- + 150 x 25 x 31.75
- + 200 x 25 x 31.75
- + 250 x 25 x 31.75
- + 300 x 25 x 31.75
- + 300 x 25 x 25.4 (l.b)
- + 300 x 40 x 38.1
- + 300 x 40 x 50.8
- + 400 x 50 x 50.8
- + 500 x 75 x 203.2
